Subject: Leviathan Mine - Interim Combined Treatment Demonstration Update

Scott,

On behalf of Atlantic Richfield, Amec Foster Wheeler is providing the following update on the Interim Combined Acid Drainage Treatability Field Demonstration. Due to a percent solids issue with the HDS Treatment Plant clarifier, Atlantic Richfield is ceasing the transfer of water from Pond 2S to Pond 4 this afternoon. At this time we do not anticipate the utilization of any further water from the upper ponds (Pond1, 2N or 2S) this year. We will be providing additional details next week.

Should you have any questions or comments please contact Tony Brown at (657) 529-4537 or anthony.brown@bp.com.

Thanks,

Marc

Marc R. Lombardi, CEM, PG
